

EVENT LIGHTING

(without solar panel for short term events)

Overview: two lights on plastic tub footing:

Utilising two Orca solar lighting systems* with two luminaires on a 6 meter high light aluminium pole and re-locatable plastic tub footing.

FEATURES:

- Two powerful lights
- Clean white light provides true colours at night
- Safe: A 12 volt DC system.
- Quick & easy install and relocation
- Can be moved with a fork lift
- 42 hours run time
- Optional banner advertising

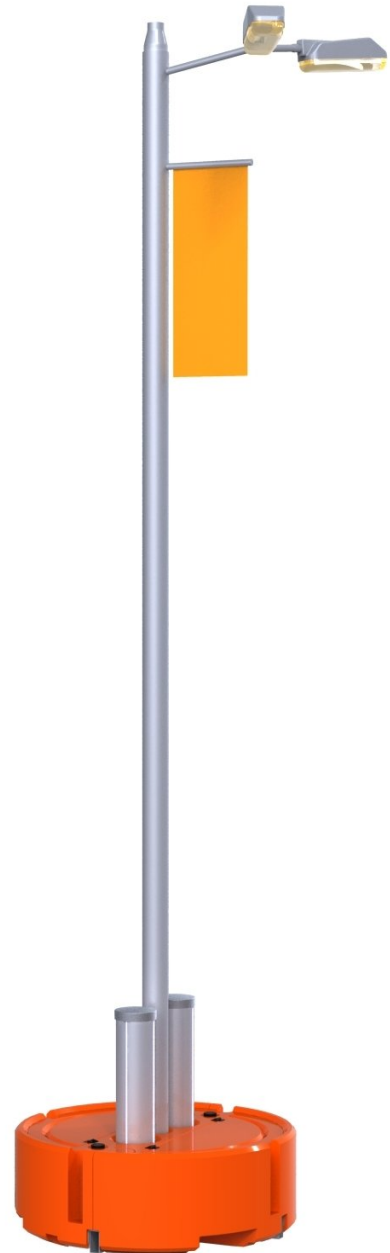

Quick 45 minute install by two person team.

The plastic tub footing is perfect for any reasonably flat surface. It is filled with sandbags or water to secure the light pole.

Forklift capability – dual tub capability.

700 kg tub ballast plus 4 mini screws into ground if required.

Perfect for short term events (less than 42 hours of light required).
